CHANGES IN THE NATURE OF BUSINESS

There were no changes in the nature of business during the year ended 31st March, 2018.

OUTLOOK 2018-2019

Bulk drugs are basically raw materials that are used to prepare ultra-grade medicines in India. The Drug Price Control is a big hindrance to the growth of the Industry. Due to a lack of price control on raw materials (which go into the manufacturing of Bulk Drug), the price of most of Bulk Drug cannot be fixed. The prices of most raw materials / chemicals fluctuate on daily basis effecting the costing of Bulk Drugs.

For most Bulk Drugs there is heavy competition internally as well as from external sources. In 90% of the cases, prices of the bulk drugs are at their bare minimum level and hence the control of prices under DPCO has no relevance. Therefore, there is urgent need of pharmaceuticals policy that could trigger bulk drugs manufacturing and investments.

Bulk drugs are used along medicines or drugs to give it stable therapeutic effect. The industry can achieve newer heights and better performance in the future provided certain hurdles which stunted its growth in the past are removed. The government needs to adopt a more pragmatic policy to remove impediments, clear certain anomalies, rationalize the duty structure and reduce unnecessary bureaucratic controls to help the industry achieve export targets.

BUSINESS PERFORMANCE

All pharmaceuticals companies are not integrated with a separate unit for formulation of active drug ingredients. This has led to an increase in outsourcing of these molecules from the manufacturing sites. Outsourcing also eliminates the need of investing expensive manufacturing processes. Due to increasing demand for rapid-acting & efficient drugs and introduction of innovative drug manufacturing facilities are drives estimated to fuel growth in

iodine derivative market, your company's turnover is increase in comparison to performance of previous year. This year has benefited from change in foreign currency.

The market is expected to stable during the mid of year 2018-19, with the expectation of an improvement in the market conditions during the year, the Company will endeavor to perform better than last year.

As regards to infrastructure, Your Company's head office and factory are adequately equipped to provide complete support to the customer. Internal control systems have been well established and cost consciousness in factory operation will lead to improved profitability in the long run. Your Directors are confident that the company will improve the performance in the current year

SUBSIDIARIES, JOINT VENTURE OR ASSOCIATES COMPANIES DURING THE YEAR

The Company has no subsidiaries, joint ventures or associated companies therefore disclosures in this regards are not provided in this report.

PARTICULARS OF INVESTMENTS HELD BY THE COMPANY UNDER SECTION 186 WITH DETAILS

[Section 134 of the Companies Act, 2013 read with Companies (Accounts) Rules, 2014]

A CONSERVATION OF ENERGY

a Energy conservation measures taken

The manufacturing units of the Company have continued their efforts to reduce the energy consumption. Specific energy consumption and absolute unit's consumption are tracked on a real time basis at individual factory / block level and consolidated at Supply Chain Level. This is being done with the help of Energy Management System at plant.

Some of the key measures taken in all the plants are as below:

- 1 Work done in improvement in shaft mechanics for reducing motor power
- 2 Presence sensors and motion sensors used in cabins
- 3 Pressure based pumping system used for utilities
- 4 Arresting air leakage and optimization of air pressure network
- 5 By controlling process parameters and changing process pipe line system.
- 6 Improvisation and continuous monitoring of Power Factor.

b Utilising alternate sources of energy

- 1 Solar energy: Nil
- 2 Wind energy: Nil

c The capital investment on energy conservation equipment

Additional investments and proposals being implemented for Energy: Nil

The Company is engaged in the continuous review of energy costs, reduction in energy generation cost through improved operational and maintenance practices. We have been able to maintain the power factor near of unity and thereby availing the rebate on electricity charges

d Impact of above measures on consumption of energy

Impact of the above measure for the reduction of energy consumption and consequent impact on the cost of production of the goods; it is difficult to assess the definite impact of the measure as the total energy cost forms a small constituent of the overall production costs.

INDEPENDENT AUDITOR'S REPORT

To,
The Members of **TRIOCHEM PRODUCTS LIMITED**

Report on the Indian Accounting Standards (Ind AS) Financial Statements

We have audited accompanying Ind AS financial statements of **TRIOCHEM PRODUCTS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018 and the Statement of Profit and Loss (including other comprehensive income) and the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the

disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid the Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) as at 31st March, 2018 and its total comprehensive income (comprising of profit and other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matters

The Comparative financial information of the Company for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 included in these Ind AS financial statements, are based on the previously issued financial statements for the year ended 31st March, 2017 and 31st March, 2016 prepared in accordance with the Companies (Accounting Standard) Rules, 2006 audited by the predecessor auditor whose report for the year ended 31st March, 2016 and 31st March, 2017 dated 26th May, 2017 and dated 27th May, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS have been audited by us.

Our opinion is not modified in respect of this matter.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT**Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **TRIOCHEM PRODUCTS LIMITED** ("the Company") as of 31st March, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31 March, 2018

1 Company overview

Triochem Products Limited (the "Company") is an existing public limited company incorporated on 17/01/1972 under the provisions of the Indian Companies Act, 1956 and deemed to exist within the purview of the Companies Act, 2013, having its registered office at 4th Floor, Sambava Chamber, Sir P. M. Road, Fort, Mumbai - 400 001. It has been engaged primarily in the business of manufacturer and exporter of pharmaceuticals products, APIs and chemicals. The equity shares of the Company are listed on BSE Limited ("BSE"). The financial statements are presented in Indian Rupee (₹).

2 Significant accounting policies

A Basis of preparation of financial statement

The financial statements Complies in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the "Act") and other relevant provisions of the Act and other accounting principles generally accepted in India.

The financial statements up to year ended March 31, 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) notified under Section 133 of the Act and other relevant provisions of the Act ("Previous GAAP").

These financial statements are the first financial statements of the Company under Ind AS. The date of transition to IND AS is 1st April, 2016. Refer note 44 related to First-time Adoption of Ind AS for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

First-time adoption: In accordance with Ind AS 101 on First-time adoption of Indian Accounting Standards, the Company's first Ind AS financial statements include, three balance sheets viz. the opening balance sheet as at 1st April, 2016 and balance sheets as at 31st March, 2017 and 2018 and two statements each of profit and loss, cash flows and changes in equity for the years ended 31st March, 2017 and 2018 together with related notes. The same accounting policies have been used for all periods presented.

The financial statements were authorized for issue by the Company's Board of Directors on 29th May, 2018.

These financial statements are presented in Indian Rupees (INR), which is also the functional currency. All the amounts have been rounded off to the nearest lacs, unless otherwise indicated.

B Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

C Basis of transition to Ind AS

The adoption of Ind AS is carried out in accordance with Ind AS 101 on 1st April, 2016 being the transition date. Ind AS 101 requires that all Ind AS standards that are issued and effective for the year ending 31st March, 2018, be applied retrospectively and consistently for all the periods presented. However, in preparing these financial statements, the company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity at the transition date.

Ind AS 101 allows first-time adopters certain optional exemptions and mandatory exceptions from the retrospective application of certain requirements under Ind AS.

(a) Exemptions from retrospective application

- i The Company has elected to apply the following optional exemption from full retrospective application of Ind AS:

(b) Deemed Cost

- i Ind AS 101 permits first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 intangible Assets. Accordingly, on transition to Ind AS, the Company has elected to continue with the carrying value of all of its Property, Plant and Equipment recognized as at 1st April 2016 (transition date) measured as per the previous GAAP and use that carrying value as the deemed cost of Property, Plant and Equipment.

- ii The following mandatory exceptions from retrospective application of Ind AS have applied by the company:

Notes to the financial statements for the year ended 31 March, 2018

(c) Estimates exception

On an assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS (except for adjustments to reflect any difference in accounting policies), as there is no objective evidence that those estimates were in error. However, estimates, that were required under Ind AS but not required under Previous GAAP, are made by the Company for the relevant reporting dates, reflecting conditions existing as at that date without using any hindsight.

(d) De-recognition of financial assets and liabilities exception

Financial assets and liabilities de-recognized before transition date are not re-recognized under Ind AS.

D Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current - non-current classification of assets and liabilities.

E Foreign currency translation

i Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

ii Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. All the foreign exchange gains and losses are presented in the statement of Profit and Loss on a net basis within other expenses or other income as applicable.

F Property, plant and equipment

On transition to Ind AS, The Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the property, plant and equipment.

i Freehold land is carried at historical cost including expenditure that is directly attributable to the acquisition of the land.

ii All other items of property, plant and equipment are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

iii Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

iv Cost of Capital Work in Progress ('CWIP') comprises amount paid towards acquisition of property, plant and equipment outstanding as of each balance sheet date and construction expenditures, other expenditures necessary for the purpose of preparing the CWIP for its intended use and borrowing cost incurred before the qualifying asset is ready for intended use. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.

v Depreciation methods, estimated useful lives and residual value

(a) Fixed assets are stated at cost less accumulated depreciation.

(b) Depreciation is provided on a written down value method at the rates and manner as prescribed under Schedule II to the Companies Act, 2013. The depreciation charge for each period is recognised in the Statement of Profit and Loss, unless it is included in the carrying amount of any other asset. The useful life, residual value and the depreciation method are reviewed atleast at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

vi Tangible assets which are not ready for their intended use on reporting date are carried as capital work-in-progress.

vii The residual values are not more than 5% of the original cost of the asset.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

TRIOCHEM PRODUCTS LIMITED

Notes to the financial statements for the year ended 31 March, 2018

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other expenses or other income as applicable.

G Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as Investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Investment properties (except freehold land) are depreciated using the straight-line method over their estimated useful lives at the rates prescribed under Schedule II of the Companies Act, 2013.

H Intangible assets

On transition to Ind AS, The Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the intangible assets.

- i An intangible asset shall be recognised if, and only if: (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and (b) the cost of the asset can be measured reliably.
- ii Computer software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use. The same is amortised over a period of 3 years on straight-line method.

I Borrowing Cost

- i Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.
- ii Borrowings are classified as current financial liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

J Income tax, deferred tax and dividend distribution tax

The Income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in the profit and loss except to the extent it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or other comprehensive income respectively.

i Current income tax

Current tax charge is based on taxable profit for the year. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii Deferred tax

Deferred tax is provided using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

TRIOCHEM PRODUCTS LIMITED

Notes to the financial statements for the year ended 31 March, 2018

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the Balance Sheet, if and only when, (a) the Company has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Minimum Alternate Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

K Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade discount taxes and amounts collected on behalf of third parties. The Company recognises revenue as under:

I Sales

(i) The Company recognizes revenue from sale of goods when:

- (a) The significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, which coincides with the delivery of goods.
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with the ownership nor effective control over the goods sold.
- (c) The amount of revenue can be reliably measured.
- (d) It is probable that future economic benefits associated with the transaction will flow to the Company.
- (e) The cost incurred or to be incurred in respect of the transaction can be measured reliably.
- (f) The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

II Other income

(i) Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(ii) Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the group, and the amount of the dividend can be measured reliably.

(iii) Export benefits

Export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are fulfilled.

L Inventories valuation

- i Raw materials, components, stores & spares, packing material, semi-finished goods & finished goods are valued at lower of cost and net realisable value.
- ii Cost of Raw Materials, components, stores & spares and packing material is arrived at Weighted Average Cost and Cost of semi-finished good and finished good comprises, raw materials, direct labour, other direct costs and related production overheads.
- iii Scrap is valued at net realisable value.
- iv Due allowances are made in respect of slow moving, non-moving and obsolete inventories based on estimate made by the Management.

TRIOCHEM PRODUCTS LIMITED

Notes to the financial statements for the year ended 31 March, 2018

M Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

N Fair Value Measurement

The Company measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) prices for identical assets or liabilities in active markets

Level 2: Significant inputs to the fair value measurement are directly or indirectly observable

Level 3: Significant inputs to the fair value measurement are unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

O Financial Instrument

a Recognition, classification and presentation

The financial instruments are recognised in the balance sheet when the company becomes a party to the contractual provisions of the instrument.

The Company determines the classification of its financial instruments at initial recognition.

The Company classifies its financial assets in the following categories: a) those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and b) those to be measured at amortized cost. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Financial assets and liabilities arising from different transactions are off-set against each other and the resultant net amount is presented in the balance sheet, if and only when, the Company currently has a legally enforceable right to set-off the related recognised amounts and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

b Measurement

(A) Initial measurement

At initial recognition, the Company measures financial instruments at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Otherwise transaction costs are expensed in the statement of profit and loss.

(B) Subsequent measurement - financial assets

The subsequent measurement of the financial assets depends on their classification as follows:

(i) Financial assets measured at amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost using the effective interest rate ('EIR') method (if the impact of discounting / any transaction costs is significant). Interest income from these financial assets is included in finance income.

(ii) Financial assets at fair value through other comprehensive income ('FVTOCI')

Equity investments which are not held for trading and for which the Company has elected to present the change in the fair value in other comprehensive income and debt instruments that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flow represent solely payment of principal and interest, are measured at FVTOCI.

The changes in fair value are taken through OCI, except for the impairment, interest (basis EIR method), dividend and foreign exchange differences which are recognised in the statement of profit and loss.

When the financial asset is derecognized, the related accumulated fair value adjustments in OCI as at the date of derecognition are reclassified from equity and recognised in the statement of profit and loss. However, there is no subsequent reclassification of fair value gains and losses to statement of profit and loss in case of equity instruments.

(iii) Financial assets at fair value through profit or loss ('FVTPL')

All equity instruments and financial assets that do not meet the criteria for amortized cost or FVTOCI are measured at fair value through profit or loss. Interest (basis EIR method) and dividend income from FVTPL is recognised in the statement of profit and loss within finance income / finance costs separately from the other gains/losses arising from changes in the fair value.

Impairment

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and debt instrument carried at FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition. If credit risk has not increased significantly, twelve month ECL is used to provide for impairment loss, otherwise lifetime ECL is used.

However, only in case of trade receivables, the company applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(c) Subsequent measurement - financial liabilities

Other financial liabilities are initially recognised at fair value less any directly attributable transaction costs. They are subsequently measured at amortized cost using the EIR method (if the impact of discounting / any transaction costs is significant).

C De-recognition

The financial liabilities are de-recognised from the balance sheet when the under-lying obligations are extinguished, discharged, lapsed, cancelled, expires or legally released. The financial assets are de-recognised from the balance sheet when the rights to receive cash flows from the financial assets have expired, or have been transferred and the Company has transferred substantially all risks and rewards of ownership. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

P Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes outstanding bank overdraft shown within current liabilities in statement of financial balance sheet and which are considered as integral part of company's cash management policy.

Q Investments

On transition to Ind AS, equity investments are measured at fair value, with value changes recognised in Other Comprehensive Income, except for those mutual fund for which the Company has elected to present the fair value changes in the Statement of Profit and Loss.

R Trade receivables

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method, less provision for expected credit loss.

S Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are recognised, initially at fair value, and subsequently measured at amortised cost using effective interest rate method.

TRIOCHEM PRODUCTS LIMITED

Notes to the financial statements for the year ended 31 March, 2018

T Provisions, contingent liabilities and contingent assets

i Provisions:

A provision is recognized, when company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made for the amount of obligation. The expense relating to the provision is presented in the profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent liabilities, if material, are disclosed by way of notes and contingent assets, if any, are disclosed in the notes to financial statements.

iii Contingent Assets

Contingent Assets are disclosed, where an inflow of economic benefits is probable.

U Earnings per share

i Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company; and
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

ii Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

V Leases

i As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

ii As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

W Employee benefits

i Short-term obligations

Liabilities for wages, salaries and leave encashment including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

67

TRIOCHEM PRODUCTS LIMITED

Notes to the financial statements for the year ended 31 March, 2018

ii Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii Post-employment obligations

The group operates the following post-employment schemes:

a Defined benefit gratuity plan:

Gratuity and Leave encashment which are defined benefits are accrued based on actuarial valuation working provided by Independent actuary. The Contribution is charged to profit and loss.

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan. The defined benefit obligation is calculated annually as per the report on independent actuary. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

b Defined Contribution plan:

Contribution payable to recognised provident fund and superannuation scheme which is defined contribution scheme is charged to Statement of Profit & Loss. The company has no further obligation to the plan beyond its contribution.

X Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Y Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.

Z Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupees Lacs (up to two decimals), unless otherwise stated as per the requirement of Schedule III (Division II).

Market Risk – Foreign Exchange	Financial assets and liabilities not denominated in INR.	Foreign currency exposure review and sensitivity analysis.	The company partly hedged due to natural hedge and is exploring to hedge its unhedged positions.
Price Risk	Change in price of raw material	The company sourcing components from vendors directly, hence it does not hedge its exposure to commodity price risk.	The company is able to pass on substantial price hike if any to the customers.

The Board provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk, liquidity risk, price risk and foreign exchange risk effecting business operation. The company's risk management is carried out by the management as per guidelines and policies approved by the Board of Directors.

(A) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit Risk Management

The company's credit risk mainly from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Company estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Company. The company has provisioning policy for expected credit losses.

The maximum exposure to credit risk as at 31 March 2018, 31 March 2017 and 1 April 2016 is the carrying value of such trade receivables as shown in note 11 of the financials.

(B) Liquidity Risk

Liquidity risk represents the inability of the Company to meet its financial obligations within stipulated time. To mitigate this risk, the Company maintains sufficient liquidity by way of working capital limits from banks.

43 Capital Management

44 Risk Management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio and is measured by net debt divided by Equity. The Company's Debt is defined as long-term and short-term borrowings including current maturities of long term borrowings and total equity (as shown in balance sheet) includes issued capital and all other reserves.

(ii) Gearing Ratio (ideal less than 50%)

44 FIRST TIME ADOPTION OF IND AS

The Company has adopted Ind AS with effect from 1st April 2017 with comparative effect. Accordingly the impact of transition has been provided in the Income Reserves as at 1st April 2016. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.

Explanation 1 - Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

(I) Ind AS Optional exemptions**Deemed Cost - Property, Plant and Equipment, Capital work-in-progress and Intangible Assets**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Company has elected to measure all of its property, plant and equipment, Capital work-in-progress and intangible assets at their previous GAAP carrying values.

(II) Ind AS mandatory exemptions**(i) Estimates**

An entity's estimates in accordance with Ind AS' at the date of transition to Ind AS shall be consistent with the estimates made for the same date in accordance with the previous GAAP (after adjustments to reflect any difference in accounting policies) unless there is an objective evidence that those estimates were in error.

(ii) Classification and measurement of financial assets (other than equity instruments)

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exists at the date of transition to Ind AS.

(iii) De-recognition of financial assets and financial liabilities

Ind AS 101 requires a first time adopter to apply the de-recognition provisions for Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows first time adopter to apply the derecognition requirements provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past Ind AS 101 retrospectively from the date of entity's choosing, transactions was obtained at the time of initially accounting for the transactions.

Note No.

1	Property, Plant and Equipment and Investment Property Under the previous GAAP, Investment Property, Land & Building of Rs. 9.41 lakhs (1 April, 2016 Rs. 9.89 lakhs) was grouped under Property Plant and Equipment. Under Ind AS, the same is treated as Investment property under Ind AS 41 at carrying cost under previous GAAP. There is no impact on the total equity and profit.
2	Investments Under the previous GAAP, investments in mutual funds were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes of these investments have been recognised in retained earnings as at the date of transition and subsequently in the profit or loss for the year ended 31 March 2017. This increased the retained earnings by Rs. -0.76 lakhs as at 31 March 2017 (1 April 2016 - Rs. 0.76 lakhs).
3	Deferred Tax Under previous GAAP, deferred taxes were recognised based on Profit & loss approach i.e. tax impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognised by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of assets and liabilities in the books and their respective tax base.
4	Revenue from operations Under the previous GAAP, revenue from sale of products was presented exclusive of excise duty. Under Ind AS, revenue from sale of goods is presented inclusive of excise duty. The excise duty paid is presented on the face of the statement of profit and loss as part of expenses. This change has resulted in an increase in total revenue and total expenses for the year ended 31 March 2017 by Rs.32.58 lakhs. There is no impact on the total equity and profit.
5	Remeasurements of post-employment benefit obligations Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended 31 March 2017 decreased by Rs.0.63 lakhs (1 April 2016 Rs.-0.10 lakhs). There is no impact on the total equity.

45 Fair Value measurement-

The fair value of Financial instrument as of March 31, 2018, March 31, 2017 and April 1, 2016 were as follows:-

Particulars	March 31, 2018	March 31, 2017	April 1, 2016	Fair value Hierarchy	Valuation Technique
Assets-					
Investment in Mutual Funds through FVTPL			369.24	Level-1	Unquoted Market Price
			369.24		

Notes to the financial statements for the year ended 31 March, 2018

[Rs. in Lakhs]

The management assessed that Cash and Cash equivalents, loans, other balances with Banks, trade receivables, trade payables and other current liabilities/assets approximate their carrying amounts largely due to the short-term maturities of these instruments.

46 Segment Reporting

The Company is engaged primarily in the business of manufacturing and export of pharmaceuticals products, APIs and chemicals. All other activities of the company revolve around the main business and hence there is no reportable primary segment. Also the Company does not have any reportable geographical segment. Hence, disclosures pursuant to the Indian Accounting Standard 108 "Operating Segment" are not applicable

47 The previous year figures have been regrouped/reclassified, wherever necessary to conform to the current presentation as per the schedule III of Companies Act, 2013.

As per our report of even date attached.

Note: Please read the instructions printed below carefully before exercising your vote

Instruction

1. The Ballot Form is provided for the benefit of the Members who do not have access to e-voting facility.
2. A Member can opt for only one mode of voting i.e. either through e-voting or by Ballot. If a Member casts votes by both modes, then voting done through e-voting shall prevail and Ballot shall be treated as invalid.

3. For detailed instruction on e-voting, please refer to the notes appended to the Notice of the AGM.
4. The Scrutinizer will collate the votes downloaded from the e-voting system and votes received through post to declare the final result for each of the Resolution forming part of the Notice of the AGM.

Process and manner for Member opting to vote by using the Ballot Form

1. Please complete and sign the Ballot Form (no other form or photo copy thereof is permitted) and send it so as to reach the Scrutinizer appointed by the Board of Directors of the Company, Mrs. Rigini Chokshi, Practicing Company Secretary (Membership No.: FCS1436) at the office of Company's Registrar & Transfer Agent.
2. The Form should be signed by the Member as per the Specimen signature registered with the Company/Depositories. In case of joint holding, the Form should be completed and signed by the first named Member and in his/her absence, by the next named joint holder. A power of Attorney (POA) holder may vote on behalf of a member, mentioning the registration number of the POA registered with the Company or enclosing an attested copy of the POA. Exercise of vote by Ballots not permitted through proxy.
3. In case the shares are held by companies, trusts, societies, etc. the duly completed Ballot Form should be accompanied by a certified true copy of the relevant Board Resolution/Authorization.
4. Votes should be cast in case of each resolution, either in favour or against by putting the tick (Y) marks in the column provided in the Ballot.
5. The voting rights of shareholders shall be in proportion of the share held by them in the paid up equity share capital of the company as on 17th August, 2018 and as per the Register of Members of the Company.
6. Duly completed Ballot Form should reach the Scrutinizer not later than Friday, August 24, 2018 (05.00 p.m. IST). Ballot Form received after August 24, 2018 will be strictly treated as if the reply form the Members has not been received.
7. A Member may request for a duplicate Ballot Form, if so required. However, duly filled in and signed duplicate Form should reach the Scrutinizer not later than the date and time specified in serial no. 6 above.
8. Unsigned, incomplete, improperly or incorrectly tick marked Ballot Forms will be rejected. A Form will also be rejected if it is received torn, defaced or mutilated to an extent which makes it difficult for the Scrutinizer to identify either the Member or as to whether the votes are in favour or against or if the signature cannot be verified.
9. The decision of the Scrutinizer on the validity of the Ballot Form and any other related matter shall be final.
10. The Results on above resolutions shall be declared not later than 48 hours from the conclusion of the AGM of the Company and the resolutions will be deemed to be passed on the AGM date subject to receipt of the requisite number of votes in favour of the Resolutions.
11. The Results declared along with the Scrutinizer's Report(s) will be available on the website of the Company (www.triochemproducts.com) and on Service Provider's website (www.cdslindia.com) and communication of the same to the BSE Limited within 48 hours from the conclusion of the AGM.
